I agree that enhanced evap project needs to be implemented quickly.

I am available for discussion:

Today, 3-4pm

Mon, 5/8: 9-12, 1-3

Tue, 5/9: 8-9, 1-4

Wed, 5/10: anytime

Thanks,

Jeryl R. Gardner, P.E., C.E.M.

**Subject:** Yerington enhanced evaporation for FMS

Dante and Jeryl,

Based on ARCs preliminary evaluation of the fluid model for the FMS, it is our recommendation that enhanced evaporation be performed at Yerington to maximize the benefit of the evaporation season at the site and provide much-needed capacity in the system. ARC is prepared to perform enhanced evaporation at the site similar to the pilot test SPS performed last year with a few modifications/improvements.

We would like to discuss this idea with you and the path forward at your earliest convenience.

Please let me know if and when you are available to have this discussion.

Thanks,

-jack
